

Kernel MBOX Converter ^{25.0}

Installation &
Uninstallation
Guide

How to Install Kernel MBOX Converter

The installation process of the software involves a few easy steps. Before proceeding, make sure you have the setup file. If you don't have the setup, then go to the website and install it.

<https://www.nucleustechnologies.com/mbox-converter.html>

Or you can directly install the setup from: <https://www.nucleustechnologies.com/downloads/mbox-converter.exe>

Once you get the installer file, follow the steps below to install the software accurately:

- Locate **Kernel MBOX Converter** installer file and double click on it.
- Next, follow the on-screen instructions.
- Once installation is done success message saying '**Setup Installation Complete**' appears on screen.
- Click on the **Finish** button to launch the software.

After successfully completing the installation process, a software shortcut will be added to the Windows Start Program menu. You can either launch the software from Program Menu or create a desktop icon to directly launch it.

Un-install Kernel MBOX Converter

You can uninstall Kernel MBOX Converter software from your system with two methods listed below:

- **From the Windows Start menu**
- **From the Control Panel**

Un-install from the Windows Start menu

- Click on the Start menu and go to All Programs.
- Click on Kernel MBOX Converter >Uninstall Kernel MBOX Converter.

- You will send a warning message before uninstalling the software on the screen.
- Click on Yes button to uninstall the software.
- Lastly, click on the OK button.

The Kernel MBOX Converter is successfully uninstalled from your computer system.

Un-install from the Control Panel

- Click on the Start button, then Control Panel.
- Go to Programs and Features and look for Kernel MBOX Converter.
- Right-click on Kernel MBOX Converter and click the Uninstall button.
- You will send a warning message before uninstalling the software on the screen.
- Click on the Yes button to uninstall the software.

The Kernel MBOX Converter is successfully uninstalled from your computer system.
